5 December 1955

MEMORANDUM FOR: Deputy Director (Support)
THROUGH: Director of Logistics
SUBJECT: Space Requirements - Project AQUATONE

1. This statement of requirements is submitted as requested by you in your discussions with Mr. Cunningham of this Project.

2. An examination of the Project T/O and such activities as operational centers, etc., necessary for the control and administration of the Project indicates a total space requirement of approximately 9600 square feet. It would be desirable to have this space so situated as to permit restricting the entire area to authorized personnel only.

3. In view of operational requirements which are upon us it would be appreciated if this Project could receive an indication in connection with this request at your very earliest possible convenience.
